

Awareness Trip Code of Conduct

To ensure a meaningful and satisfying experience, each participant is expected to commit to an established program for trip preparation and follow-up and abide by RAYJON's **Code of Conduct** during the trip. This will minimize risks to personal safety, health and security. It will honor and respect the local customs and maintain RAYJON's reputation both at home and abroad.

Participants are part of a team and must understand that they are expected to participate in preparation activities and all scheduled activities in the host country.

Alcohol consumption is **strictly forbidden** on Awareness Trips.

Smokers must be considerate to the non-smoking participants and to the people of the host countries, and should be restricted to the hotels/guesthouses or to situations approved by the trip leader/s.

iPods and cell phones are **not permitted** on Awareness Trips.

For safety's sake, participants or small groups will **not** be free to wander around alone.

Realize that people of another country often have time concepts and thought patterns different from our own. They may be dealing with various situations that prevent them from fulfilling certain scheduled obligations in a timely manner. We ask trip participants to be flexible and patient when these situations arise.

Whenever necessary, the final authority is with the trip leader/s and participants are expected to cooperate with leader directives. The trip leader/s has a responsibility to address any behaviour that is unsafe, disruptive or detrimental to the welfare of the group or creates a negative impression of RAYJON. Please show patience, respect and understanding to your leader/s.

I have read, understood and will abide by RAYJON's Code of Conduct.
